Last Steamboat from Washington

In 2020, the town of Washington, Louisiana, celebrates the tricentennial of its founding.

I hope you enjoy the song. I did a lot of online research before I wrote it. What a fascinating history you have in Washington! This song deals with only a portion of your town's colorful past.

I know that because of the corona virus, the Tricentennial isn't unfolding as you had planned. But perhaps you can find a use for the song in your town's celebrations. Please feel free to share "Last Steamboat from Washington" with the folks in your community.

Best regards,
Jack Watson
