

Villagers –

Lakeside Paving will be repaving 103rd, 28th, 102nd and SE 27th October 11-15. This will finish construction of the 2019 and 2020 Water Line Replacement and Storm Water projects. Affected residents will have access to their houses in the evenings, and we ask that all neighbors in the Village help with parking accommodations during the day.

Week of October 11-12, 2021:

KC Roads – Lakeside; stage 1 of pavement restoration activities

Stage 1 will include the grinding work and a base patching layer of asphalt. This work is tentatively scheduled for Monday and Tuesday, October 11/12th. You will have access to your property during this time but may be delayed entering and leaving up to 15 minutes.

Week of October 13-15, 2021:

KC Roads – Lakeside; stage 2 of pavement restoration activities

Stage 2 will include the final overlay work. This work is tentatively scheduled for Wednesday through Friday, 10/13 – 10/15. Please know there are times when you will be unable to access your property for extended hours, even full days, during this time. Emergency services (i.e., fire, ambulance, police, etc.) however, will be notified well in advance and arrangements made as necessary. Personal vehicles can be parked in any available public right-of-way space outside the construction zone and traffic control personnel will be on-site to aid pedestrians through the active work areas.
