

From the Desk of Mayor

Town of Enfield, North Carolina

STATE OF EMERGENCY DECLARATION

Effective 8:00 a.m. on January 23, 2026, until further notice, I, W. Mondale Robinson, Mayor of Enfield, North Carolina, hereby declare a State of Emergency for the Town of Enfield due to the imminent and severe winter weather event expected to impact our community.

Meteorologists are forecasting what is being described as the winter storm of the decade, with precipitation expected to include snow, sleet, and freezing rain. These conditions pose a significant threat to public safety, road conditions, utilities, and emergency response capabilities.

To protect the health and safety of our residents, the Town of Enfield will implement a no-car restriction (curfew) beginning at 5:29 p.m. on Saturday, January 24, 2026

(sunset) and continuing until 7:20 a.m. on Sunday, January 25, 2026 (sunrise).

Exceptions to this restriction are granted to individuals traveling to and from work.

Residents should be advised that Halifax County has informed the Town that no county services will be deployed on Saturday night for any reason. This means emergency response and road assistance will be extremely limited during this period. Travel should be avoided unless absolutely necessary.

The Town of Enfield has begun coordinating with the Emergency Management Agency and other response partners to prepare for potential impacts and to deploy resources should their services be required.

I urge all residents to take this storm seriously, remain indoors during hazardous conditions, secure necessary supplies, and check on elderly neighbors and those who may need assistance. Please continue to monitor official Town communications for updates as conditions evolve.

This declaration is issued in the interest of public safety and will remain in effect until rescinded.

Respectfully,

W. Mondale Robinson

Mayor, Town of Enfield, North Carolina
