(m) Mitigation rate notes:

(1) The mitigation rates above are average “billing levels,” and are typical for the incident responses listed, however, when a claim is submitted, it will be itemized and based on the actual services provided.

(2) These average mitigation rates were determined by itemizing costs for a typical run (from the time a fire apparatus leaves the station until it returns to the station) and are based on the actual costs, using amortized schedules for apparatus (including useful life, equipment, repairs, and maintenance) and labor rates (an average department’s “actual personnel expense” and not just a firefighter’s basic wage). The actual personnel expense includes costs such as wages, retirement, benefits, workers comp, insurance, etc.

(n) Late fees: If the invoice is not paid within 90 days, a late charge of 10% of the invoice, as well as 1.5% per month, as well as the actual cost of the collections, will be assessed to the responsible party.
