

Boil Water Advisory to Consumers of Wilderness Waterworks LIFTED

As of April 15, 2025, the Boil Water Advisory has been lifted for customers in the impacted area.

The Boil Water Advisory was issued on April 13th after service interruption and loss of water pressure to some customers.

A series of bacteriological samples were collected and sent to a state certified lab. All samples collected on April 13th and 14th were absent of both total coliform and *E. coli* bacteria.

Residents can safely resume normal use of their tap water.
