

SUSTAINABLE SERVICES

WEATHERIZATION PROGRAM

The Ark-Tex Council of Governments is sponsoring a Weatherization Program that can make your home more energy efficient and save you money each month on your utility bills. You may qualify for energy-saving measures that can help make your home more energy efficient. Qualified measures can include: Attic insulation, duct sealing, and caulking/weather-stripping.

Qualifications for the Weatherization Program include:

- You must receive Natural Gas services through ATMOS Energy
- Must meet certain income requirements. Your income eligibility will be verified following procedures in the Texas Administrative Code Rules for Energy Assistance Programs.
- Your home must pass an energy audit/inspection to determine if energy efficiency services are warranted for your home.
