(CW #4: OS – 7/17)
- GP Work sessions (4)
- 60-Day Review (10/1 – 12/1)

- Final GP Development
- GP Work sessions
- Formal Adoption
- Voter Ratification

Community Workshop Format

General Plan 2030 – Existing Vision Statement

STATION 1

Carefree is a unique semi-rural small town nestled among vegetated sloping foothills of the Upper Sonoran Desert. The Town was master planned to be entirely distinctive from the surrounding communities. This distinction is reflected in many of the local street names, such as Easy Street, Ho Hum, Nonchalant and Peaceful Place. The Town is a community where residents enjoy a lifestyle that blends into the quiet of the natural desert. At the heart of Carefree is the business district, where residents and visitors gather to work, shop and visit.

Preserve
for Intro

Carefree's founding fathers thoughtfully planned the community to include within its fabric select amenities, including a resort, a private airport, a private golf course and a unique shopping district located in the geographic center of the community. Complementing these land uses are a rich assortment of residential lifestyles, from town homes and condominiums situated in its shopping district, to magnificent homes harmoniously placed within the splendor of the Upper Sonoran Desert.

The community aspires to maintain its characteristics of a community with a high quality of life, a vibrant Town Center and peaceful and well-designed semi-rural neighborhoods that blend into the natural terrain and are sensitive to the native vegetation and wildlife.

Proposed
Vision

~~As the Town matures, the Town will face certain challenges as it implements its vision. The urbanizing communities surrounding the Town have an effect on the Town's ability to maintain its distinct nature. Within the Town limits, as undeveloped raw land becomes scarcer the community will see a significant shift from the construction of new homes to extensive remodels or replacements. The Town Center will also see challenges in the future to enhance its vibrancy given the commercial encroachment from nearby communities.~~

Deleted
Text

Looking forward, the Town can address its evolving challenges and preserve its unique lifestyle by striving for sustained economic, social, and environmental prosperity sustainability. ~~From an economic perspective, a~~ New economic opportunities should be targeted which enhance the community's sales tax base that provides additional security for the fiscal health of the Town. Residential and commercial neighborhoods should continue to be maintained and enhanced through appropriate infrastructure investment. Socially, strong community bonds should be supported by providing opportunities for enhanced citizen involvement. Additionally, development should be cognizant and reflective of its impact on the sensitive nature of the Upper Sonoran Desert. In doing so, the Town will be more capable of bringing to fruition its goals and objectives ~~and towards~~ becoming an even more exceptional place to enjoy its diverse amenities and tranquil environment.

General Plan 2030 – Proposed Vision Statement

Our Vision expresses what we as a community aspire to be and provides a common touchpoint for making decisions and a consistent point of reference to manage changes in conditions in the future.

Carefree aspires to maintain its characteristics of a community with a high quality of life, a vibrant Town Center, and peaceful, well-designed semi-rural neighborhoods that blend into the natural terrain in a manner that is sensitive to native vegetation and wildlife.

From public input and components of the existing General Plan vision statement, the following values were derived that represent what Carefree holds to be important.

In realizing our Vision, it is important to our community that:

- ***We are a distinct, authentic, and welcoming Town.***
- ***We respect our environment and are stewards of our open space and scenic amenities.***
- ***We enjoy healthy, active lifestyles that are focused around our natural recreational opportunities.***
- ***We are a safe place to live by meeting the community's need for connectivity and services.***
- ***We all benefit from a prosperous economy and fiscal Town stability.***
