

Water Distribution Field Supervisor:

Carefree Water Company, located in the northern Phoenix metro area, is looking for a full-time, permanent Water Distribution Field Supervisor. State of AZ Operator Certification in Water Distribution at a Grade 3 level is required at time of hire or must be obtained within 6 months of hire. High School education and diploma are required. Applicant supervises a crew of 3 field operations staff and should be prepared to perform and supervise a variety of functions related to the operation and maintenance of Carefree's water distribution system. Functions include, but are not limited to, safety, water production, water quality, repair and construction, and customer contact. Mechanical and electrical knowledge and abilities are required. Job functions are primarily performed outdoors, including highly strenuous activities in the heat. Excellent benefits package including health, dental, vision, life insurance, retirement, sick leave, and vacation leave. Drug test required. Compensation ranges from \$60,000 to \$90,000 annually depending upon qualifications, experience, and certifications.

To apply:

Submit resume to apply at carefreewaterco.com or by fax to 480-575-9802. A Carefree Water Company Employment Application will be emailed for applicant to complete and is necessary for consideration. *Please, no phone calls regarding this position.*
