

Dear Marshall Customer,

The mission of the Fauquier County Water and Sanitation Authority (FCWSA) is to provide quality, reliable water and wastewater services in an environmentally responsible and sustainable manner. In order to fulfill our mission, we must improve our infrastructure to ensure your systems continue to properly operate 24/7/365.

This letter is to notify you that FCWSA will continue work on the Anderson Avenue Improvement Project throughout October 2020. The enclosed map provides you with an outline of the work to be completed, which includes the installation of new water lines, the demolition of old water mains, and the removal of Old Marshall Waterworks buildings.

Our goal is to quickly, but safely, perform the work in a way that causes the least disruption. In order to ensure everyone maintains water throughout the project, we have installed temporary water lines. The lines are sturdy and safe to run over, however, we would appreciate your avoiding mowing over the lines.

We will require a **temporary interruption of water service from 9:00 a.m. to 3:00 p.m. on Wednesday, October 14th** as we connect a new eight-inch watermain and remove old four-inch cast iron pipe.

The new lines will provide you with a significant upgrade to the water system serving your neighborhood. We do apologize in advance for any temporary inconvenience the project may cause you.

If you have any questions or concerns, you may contact the onsite supervisor, Gilberto Saravia, at (540) 349-2092, extension 119.

Sincerely,

Fauquier County Water and Sanitation Authority
