July 15, 2021

Dear Septic Hauler

The Fauquier County Water and Sanitation Authority's (FCWSA) mission is to provide quality, reliable water and wastewater services in an environmentally responsible and sustainable manner. At present, the Remington Wastewater Treatment Plant (WWTP) is experiencing an upset due to abnormally high levels of septage received at the WWTP.

Effective Monday, July 19, 2021, the FCWSA will not accept any hauled waste generated outside of Fauquier County. The FCWSA will monitor the condition of the WWTP, and if the facility does not improve with the in-County restriction, then the FCWSA will further implement the 200,000 gallon per month restriction under existing permit conditions, to be enforced on a first-come first-served basis, which would be enforced at approximately 10,000 gallons per weekday.

Thank you for your cooperation. If you have additional questions, please contact Cheryl St. Amant at (540) 349-2092 ext 114.

Sincerely,

Fauquier County Water and Sanitation Authority
