COURTESY LEAK ADJUSTMENT REQUEST

Fauquier County Water and Sanitation Authority may grant a courtesy credit adjustment to a customer's bill for underground leaks, broken irrigation systems or indoor fixture malfunctions, or for an unusually high bill for an unknown cause where no ongoing leak is detected. To be eligible, you cannot have received a Courtesy Leak Adjustment within the last five years. All Courtesy Leak Adjustments are at the discretion of the Authority and calculated as follows:

1. For underground leaks in Customer's service line:
 - 100% of water and sewer charges in excess of your normal usage average for a maximum of 3 billing periods. Normal usage will be calculated by averaging the 12 months prior to the first month included in the leak adjustment. If your account is new and we have no history, 7000 gallons per month will be used. Adjustments will be capped at \$5000.
2. For leaks of inside plumbing and for outside irrigation systems:
 - 66% of water and sewer charges in excess of your normal usage for a maximum of 3 billing periods capped at \$2500.
3. Courtesy unknown loss adjustments where no ongoing leak is detected are only offered on a one-time per account basis and may be granted at the discretion of the Authority after thorough review. You must provide proof that a contractor or plumbing professional has verified that no leaks are present and you have not previously received a courtesy adjustment from FCWSA on your account.
 - 66% of water and sewer charges in excess of your normal usage for 1 billing period. Adjustments will be capped at \$2500.

This form must be filled out and returned to our office, along with copies of receipts for leak repairs or a receipt for inspections as required for consideration of any adjustments.
