UTILITY STANDARDS MANUAL AMENDMENT FORM

The Authority's Utility Standards Manual is hereby amended as follows:

Section Being Amended: 6.14 Extensions of Public Sewer

From: N/A – This is an addition.

To:

6.14 Extensions of Public Sewer

Sanitary sewer mains shall be extended beyond the limits of proposed site and utility improvements to accommodate future extensions that would otherwise be undermined during the subsequent installation. All temporary termination of public sewer shall be made at a manhole. Onsite easements for future extensions shall be provided to the site or subdivision boundary and conveyed to the Authority for the purpose of extending public sewer. Where the installation is to occur in the future, temporary construction easements will also be required to enable the future installation.

Approved:

Benjamin R. Shoemaker
Executive Director
